

Erasmus+ KA201 Project

Supporting Opportunity in Schools: Promoting Educational Equity

Project Number 2017-1-ES01-KA201-037990

Our project is aimed at empowering schools to enhance and to assess equity through the development of several intellectual outputs and actions. This highlights the importance of assessing equity in schools to raise awareness among educational stakeholders. You can find more information in the project website.

The 14th of June we had an extra coordinators' meeting in Barcelona. The meeting was organized to revise all the major topics of the project; this is why, we covered the following: achievement of project objectives, quality of intellectual outputs, dissemination activities, review of multiplier events, project evaluation and preparation of the final report.

These are the colleagues who attended the meeting.

Local conferences on Equity

-Multiplier Events-

A Multiplier Event is a conference to disseminate the results of the project, especially the intellectual outputs produced, to a specific target audience. In our project, we have organised, at least, one multiplier event in each country. The audience were school heads and educational stakeholders in the area of influence of the participating institutions.

In the section "Multiplier Events" of our project website you will find the programmes and the presentations used in the conferences.
